

SEDIMENT CONTROL CARTRIDGE (SC-PWD)

PRODUCT APPROVAL UPDATE FOR PHILADELPHIA DESIGNERS

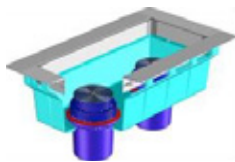

SEDIMENT CONTROL CARTRIDGE APPROVED

Fabco Industries' new sediment control cartridge (SC-PWD) has been approved by the Philadelphia Water Department to treat stormwater runoff on private developments.

Fabco SC-PWDs provide effective stormwater treatment and maintain high flow rates for the life of the cartridge. The new SC-PWD can be implemented in centralized, decentralized, above-grade and below-grade applications, as shown below:

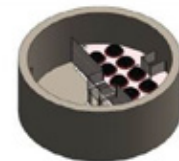

STORMBASIN

Decentralized Water Quality Insert

DOWNSPOUT FILTER

Decentralized Water Quality Structures

STORMSAFE

Centralized Water Quality Structures
